V 01 - Student Master & Academic Profile

PROBLEM -

Institutions need to maintain and quickly access complete student academic information for administrative reporting and accreditation.

Student information such as program, department, academic year, semester, admission year and current status needs to be consolidated in one system

WHO HAS PROBLEM?

- " Colleges and Universities
- " Academic administrators
- " Department staff
- " faculty and staff who need student information.

SOLUTION -

We will build a Student Profile Management System that stores and manages the complete academic identity of every student.

The system allows administrators to add, edit, search, filter and view student records & see - program wise student counts

• WHAT DATA WE NEED ?

➤ Student ID

➤ Student Name

➤ Program

➤ Department

➤ Academic Year

➤ Semester

➤ Admission Year

➤ Student Status

/ Active

/ Inactive

/ Graduated

/ Other relevant statuses

• SUPPORTING ENTITIES

→ Institution

→ Department

→ Prgm

→ Academic Year

→ Semester

→ Student

→ Enrollment

// Screens

- 1) Dashboard
- 2) Student list
- 3) Add Student
- 4) Student Profile
- 5) Edit Student

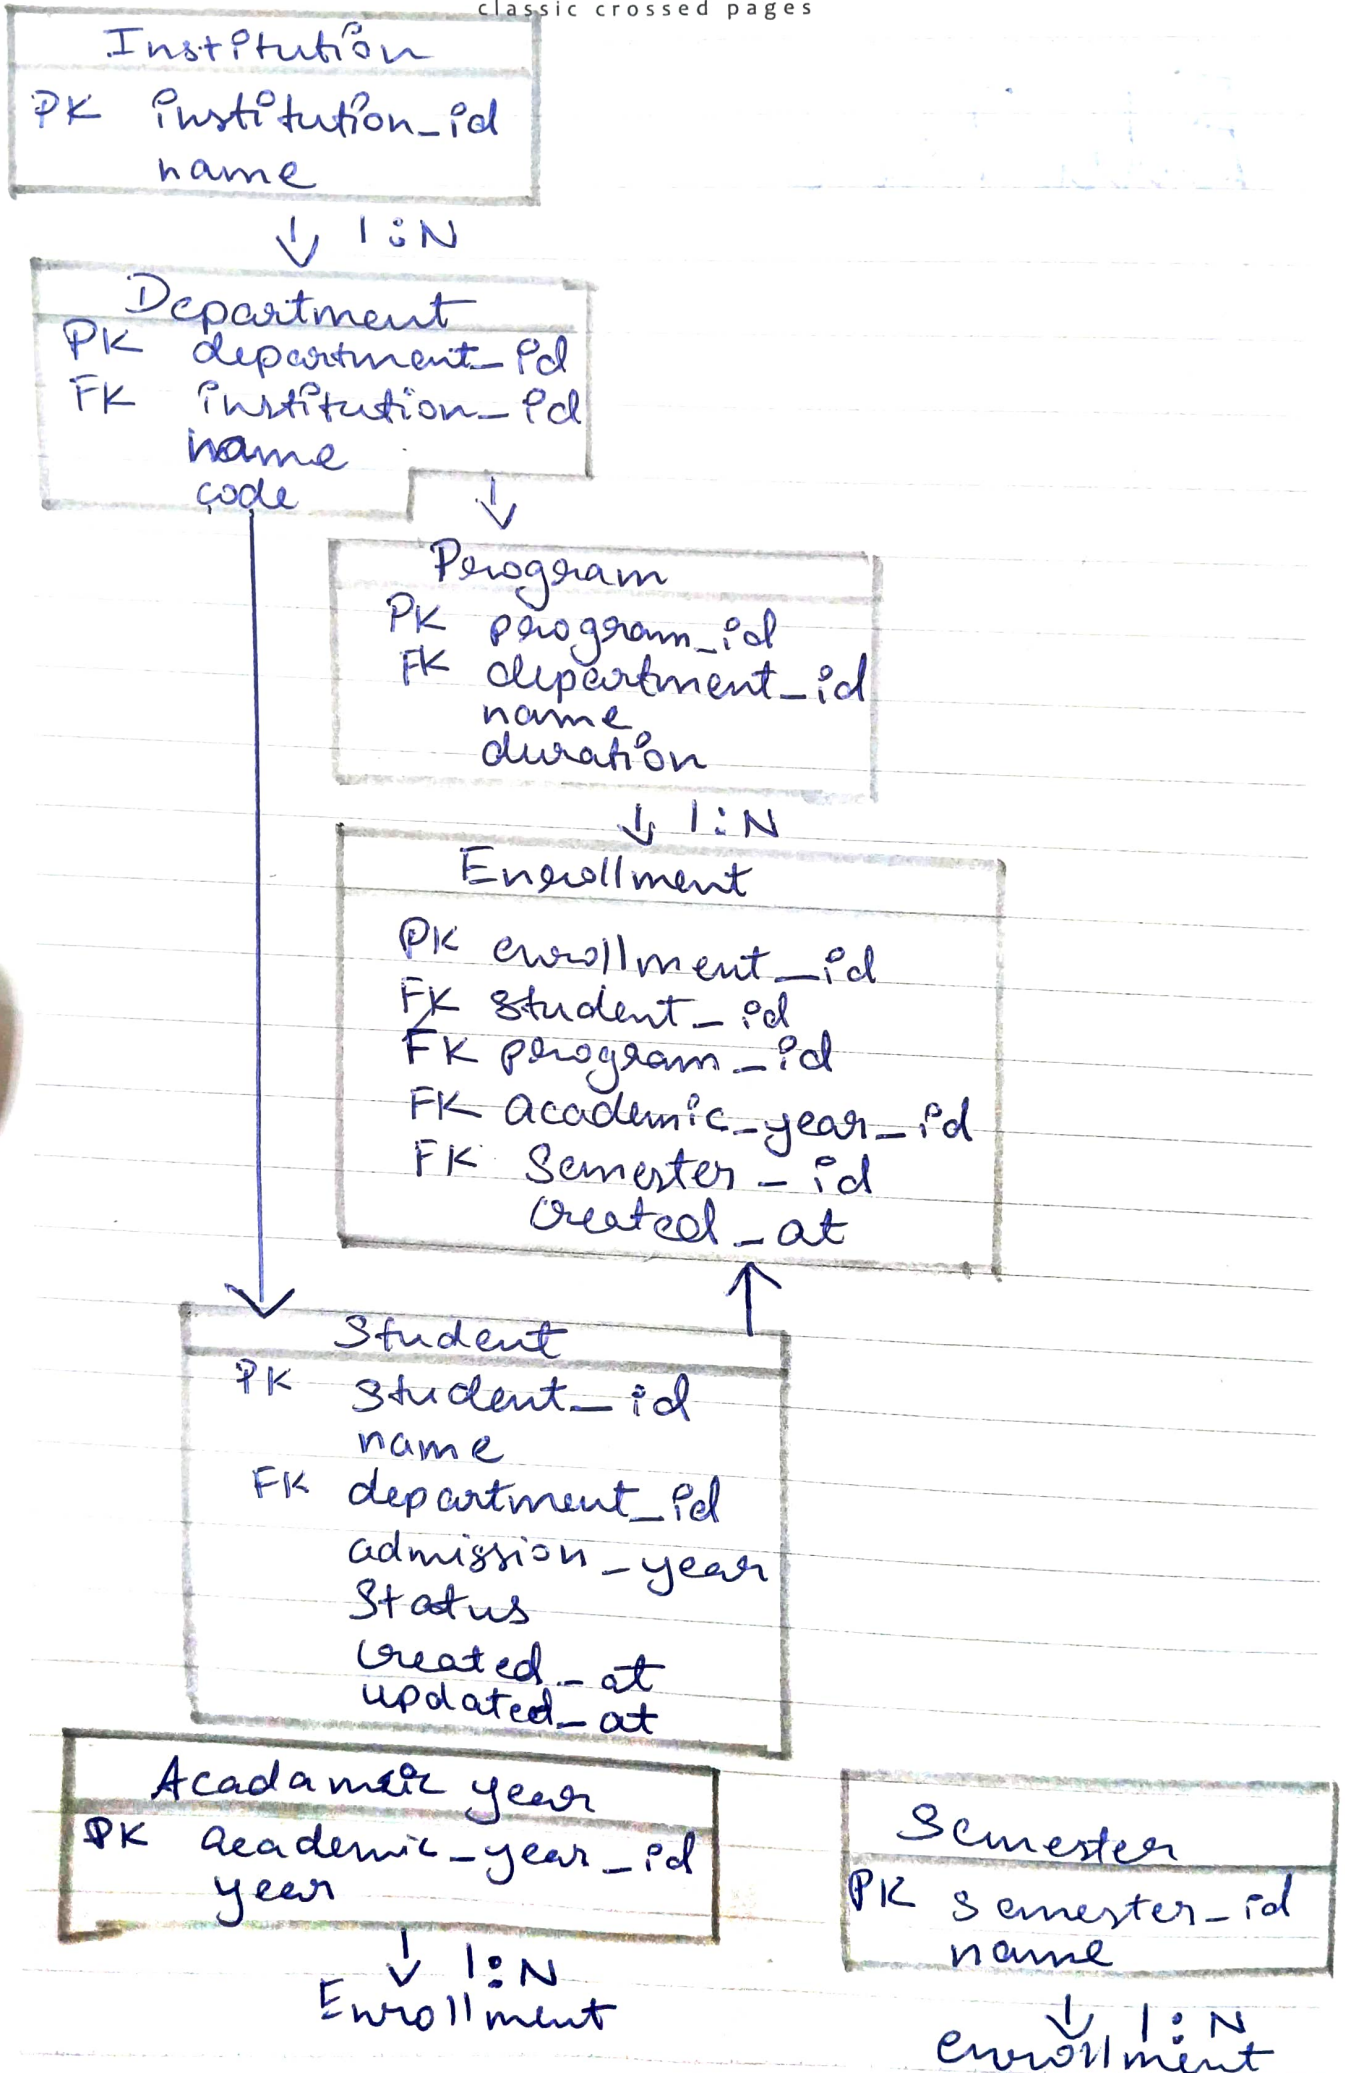

// Outputs

- New student add
- View complete student profile
- Edit / update student info
- Search student by:
 - Name
 - ID
 - Prgm
- filter student records
- Programwise student count
- dashboard showing student insight
- Student count should update when data changes
